Sub-task

- [SLIDER-4] - initial registry designs -> slider site
- [SLIDER-5] - CLI to list and retrieve service bindings & configs
- [SLIDER-12] - Update LICENSE and NOTICE
- [SLIDER-17] - limit conf filenames to exclude ".", make filetype the suffix
- [SLIDER-23] - purge all refs to hortonworks from docs
- [SLIDER-27] - update POMs for ASF hosting
- [SLIDER-35] - providers to publish registry information
- [SLIDER-50] - change URL for published key-val pairs to .filetype, not /filetype
- [SLIDER-62] - add functional test for registry entries against hbase provider
- [SLIDER-63] - registry CLI to return new NOT_FOUND exit code if there was no registry entry
- [SLIDER-93] - set up slider wiki

Bug

- [SLIDER-2] - Unit test fails due to presence of conf/.svn directory
- [SLIDER-20] - Slider apps do not run if not run as yarn user
- [SLIDER-21] - ZK_HOSTS puts an extra "," at the end breaking accumulo
- [SLIDER-32] - slider-agent.tar.gz is not getting included in the slider package
- [SLIDER-40] - AgentProviderService should read metainfo and get the script path from the metainfo file
- [SLIDER-41] - Some of the unit tests are not running as the class name do not start with Test
- [SLIDER-42] - Fail fast with client side validation when app package is not .zip
- [SLIDER-44] - Unable to access Am tracking UI
- [SLIDER-48] - Slider AM tracking URI shows all containers for a component - including the killed ones
- [SLIDER-54] - Report container hostname and log file location for containers that have failed
- [SLIDER-56] - Cleanup the storm package
- [SLIDER-57] - Add basic component command order support
- [SLIDER-58] - When component starts are ordered then ensure that the config sent to the later starts are always up-to-date
- [SLIDER-59] - Slider should provide application metadata in status
- [SLIDER-70] - move from URLs to URL strings in ProviderService methods
- [SLIDER-73] - Accumulo package description is too long
- [SLIDER-74] - Allow package description to be longer than 100 chars
- [SLIDER-98] - Add ganglia configuration support for hbase package
- [SLIDER-101] - AgentProviderService#metainfo should be declared volatile
- [SLIDER-102] - Add metrics information to application package
- [SLIDER-104] - Metainfo parser should parse min and max instance count

Improvement

- [SLIDER-13] - switch build to be java7+ only
- [SLIDER-95] - Export Accumulo monitor URI

New Feature

- [SLIDER-72] - create first ASF-hosted beta release

Task

- [SLIDER-25] - Have Slider-Agent report back the latest config of any type

Test

- [SLIDER-19] - Add agent functional test for test app

Edit/Copy Release Notes

The text area below allows the project release notes to be edited and copied to another document.

```
    * [SLIDER-102] - Add metrics information to application package
    * [SLIDER-104] - Metainfo parser should parse min and max instance count

** Improvement
    * [SLIDER-13] - switch build to be java7+ only
    * [SLIDER-95] - Export Accumulo monitor URI
